Format for submitting pursuant to Article 8 of the Stockholm Convention the information specified in Annex E of the Convention

Introductory information		
Name of the	Republic of Lebanon	
submitting		
Party/observer		
Contact details	Ministry of Environment	
(name, telephone,	Service of Prevention from Technological Impacts & Natural Hazards	
e-mail) of the	j.berbari@moe.gov.lb	
submitting		
Party/observer		
Chemical name	Pentabromodiphenyl ether	
(as used by the POPS		
Review Committee		
(POPRC))		
Date of submission	February 15, 2006	

(a) Sources, including as appropriate (provide summary information and relevant references)		
(i) Production data:	None	
Quantity	Zero	
Location		
Other		
(ii) Uses	None imported in the past 5 years (2000-2005).	
(iii) Releases:		
Discharges		
Losses		
Emissions		
Other		

(b) Hazard assessment for endpoints of concern, including consideration of toxicological interactions involving multiple chemicals (provide summary information and relevant references)

K0582396 290705

Chemical/physical

properties	
Persistence	
How are chemical/physical properties and persistence linked to environmental transport, transfer within and between environmental compartments, degradation and transformation to other chemicals?	
Bio-concentration or bio- accumulation factor, based on measured values (unless monitoring data are judged to meet this need)	
(d) Monitoring data (pr	ovide summary information and relevant references)
e) Exposure in local arease e general	s (provide summary information and relevant references)
 as a result of long-range environmental transport information regarding bioavailability 	

(c) Environmental fate (provide summary information and relevant references)

hazard classifications, as available (provide summa	sments or profiles and labelling information and ry information and relevant references)
(g) Status of the chemical under international conve	ntions
(g) Status of the element under international conve	Italia
(g) Status of the element unter mermational conve	
(g) Status of the chemical unter methational conve	
(g) Status of the chemical under international conve	
(g) Status of the chemical under international conve	
(g) Status of the element unter mermational conve	
(g) Status of the chemical under methadolar conve	
(g) Status of the chemical under methadolar conve
