Dear Dr. Younes,

Further to Canada's June 28, 2007 letter indicating that Canada was preparing comments for submission to the POPs Review Committee, please find attached comments on Draft Risk Profiles and on Risk Management Evaluations of chemicals proposed for listing in Annexes of the Stockholm Convention. We apologise for the delay and thank you for your understanding.

Should you require further information or have any questions please do not hesitate to contact me.

Sincerely,

France Jacovella
