

## 1. Устав

### 2. Curriculum vitae/ bio data and 21 experts

1. Mr Vyalit REZEPOV - Deputy Director – Ph. D. (Chemistry), higher chemical education, more than 20 years experience in management, 30 years professional experience in the management of chemical substances, good communication skills, fluent English, German and Russian.
2. Mr. Alexander SHEKHOVTSOV - Adviser - Ph. D. (Technical) - Higher technical education, more than 30 years experience in management and state administration, 30 years professional experience in the development and introduction of environmental programmes and projects, including preparation of plans for environmental management, good communication skills, easily English, fluent Russian.
3. Mr. Victor BUROVTSOV - Project Coordinator - Ph. D. (Chemistry) - Higher chemical education (chemical technology), more than 20 years experience in introduction of environmental programs and projects, good communication skills, easily English, fluent Russian
4. Mr. Sergey CHIZHOV - Chief of the Section - Higher technical education, more than 20 years experience in the development and introduction of environmental programmes and projects, good communication skills, read and writer with France dictionary, fluent Russian
5. Ms. Irina CHUIKO - Project Coordinator - Higher chemical education, more than 15 years experience in introduction of environmental programs and projects, good communication skills, read and writer with English with dictionary, fluent Russian
6. Ms. Natalya KAPLUNOVA - Chief of the Section - Ph. D. (Technical) Higher economic education, more than 20 years in the development and introduction of environmental programs and projects, good communication skills, not easily English, fluent Russian
7. Ms. Marina KLIMOVA - Chief of the Section - Ph. D. (Medical) - Higher education in medicine, more than 25 years' experience in the development and introduction of environmental programmes and projects, including preparation of plans for environmental management, more than 20 years professional experience in the management of chemical substance, good communication skills, computer literacy. English write and read, fluent Russian.
8. Ms. Nina KOMISSAROVA - Chief of Finance Unit - Higher education, more than 15 years experience in management of environmental programs and projects, good communication skills, read and writer with English with dictionary, fluent Russian
9. Ms Lyudmila LYASHENKO - Project Coordinator - Ph. D. (Technical) - Higher chemical education, more than 15 years experience in introduction of environmental programs and projects, good communication skills, read and writer with English dictionary, fluent Russian
10. Ms. Elena PERSHINA - Project Coordinator - Higher technical education, more than 15 years experience in the management of chemical substances, more than 15 years' experience in the development and introduction of environmental programmes and projects, including preparation of plans for environmental management, good communication skills, computer literacy, written English, fluent Russian.
11. Mr. Yury SHUYTSEV - Project Coordinator - Ph. D. (Geography) - Higher geographic education, more than 20 years experience in introduction of environmental programs and projects, good communication skills, read and writer with English dictionary, fluent Russian

#### Group of permanent experts

12. Mr. Michael BERNADINER - Deputy director - Ph. D. (Chemistry), «Tekhenergochimprom», Higher chemical education (chemical technology), more than 20 years experience in the development and introduction of environmental programs. Development of technologies for destruction of hazardous wastes. English, Russian – fluent.
13. Mr. Sergey DUTCHAK - Director - Ph. D. (Technical) - International Synthesizer Center «East», Higher technical education, more than 15 years experience in the development and

- introduction of environmental programs in the field of transportation of hazardous substances on long distance. English, Ukraine, Russian – fluent.
14. Mr. Aleksey KONOPLEV - Director of chemical analytical center - Ph. D. (Chemistry) Scientific center «Typhun» Rosgydromet, higher chemical education (chemical technology), more than 20 years experience in the development and introduction of environmental analytical programs in the field of Long term. English, Russian – fluent.
  15. Mr. Maxim KOROLKOV - Chief of technology laboratory - Ph. D. (Technical), «The state scientific research institute of organic chemistry and technologies», higher technical education, more than 10 years experience in the development and introduction of environmental programs. English, Russian – fluent.
  16. Mr. Nicolay KRISHTAL - Chief of laboratory - Ph. D. (Chemistry), «Synthesis and KB», Higher chemical education (chemical technology), more than 20 years experience in the development and introduction of environmental programs, inventory of PCB and PCB-containing equipment. English, Russian – fluent.
  17. Mr. Michael LUNJOV - Chief of laboratory, Ph. D. (Biology) Russian Scientific and Research Institute of Agrochemistry, Higher biology education, more than 20 years experience in the development and introduction of environmental programs in sphere obsolete pesticides. English – read and write easily. Russian – fluent.
  18. Mr. Konstantin OVCHINNIKOV - General director - Ph. D. (Technical), «Energochimtek», Higher technical education, more than 15 years experience in the development and introduction of environmental programs directed on destruction of hazardous wastes. English, Russian – fluent.
  19. Mr. Michael PREDTECHENSKY – Director - Ph. D. (Technical and Physic's), «International Centre of science on thermophysics and power», Higher technical education, more than 15 years experience in the development and introduction of environmental programs. English, Russian – fluent.
  20. Mr. Boris REVICH - Head of Unit Ph. D. (Medical) - Centre for Demography and ecology of mankind of RAN, higher medical education, more than 20 years experience in the development and introduction of environmental programs directed on the protection of Human health. English, Russian – fluent.
  21. Mr. Uriy TREGGER - General director - Ph. D. (Chemistry), Research engineering Center «Synthesis», Higher chemical education (chemical technology), more than 30 years experience in development and introduction of chemical technologies of hazardous chemicals. English, Russian – fluent.
